# Safety Data Sheet acc. to OSHA HCS

Printing date 03/03/2023 Reviewe

Reviewed on 02/22/2023

- · Chemical characterization: Mixtures
- · Description: Detergent composition
- Dangerous components:
- Sodium compound

# **4 First-aid measures**

- · Description of first aid measures
- · General information: Immediately remove any clothing soiled by the product.
- · After inhalation: Supply fresh air; consult doctor in case of complaints.
- · After skin contact:
- Immediately wash with water and soap and rinse thoroughly.
- If skin irritation continues, consult a doctor.
- · After eye contact:
- Check for and remove any contact lenses.
- Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.
- · After swallowing:
- Rinse out mouth and then drink plenty of water.
- Do not induce vomiting; call for medical help immediately.
- If vomiting occurs spontaneously, keep head below hips to prevent aspiration.
- Information for doctor: Treat symptomatically and supportively.
- Most important symptoms and effects, both acute and delayed No further relevant information available.
- $\cdot$  Indication of any immediate medical attention and special treatment needed
- No further relevant information available.

## **5** Fire-fighting measures

- · Extinguishing media
- · Suitable extinguishing agents:
- CO2, extinguishing powder or water spray. Fight larger fires with water spray. Use fire fighting measures that suit the environment.

Printing date 03/03/2023 Reviewed on 02/22/2023 **Trade name: Genesol 80** (Contd. of page 2) · For safety reasons unsuitable extinguishing agents: Water with full jet · Special hazards arising from the substance or mixture Formation of toxic gases is possible during heating or in case of fire. · Advice for firefighters · Protective equipment: Wear fully protective suit. Do not inhale explosion gases or combustion gases. Wear self-contained respiratory protective device. **6** Accidental release measures · Personal precautions, protective equipment and emergency procedures Ensure adequate ventilation Wear protective equipment. Keep unprotected persons away. · Environmental precautions: Do not allow to penetrate the ground/soil. Do not allow product to reach sewage system or any water course in the undiluted form. Inform respective authorities in case of seepage into water course or sewage system. · Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Send for recovery or disposal in suitable receptacles. · Reference to other sections See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information. · Protective Action Criteria for Chemicals · **PAC-1**: 13845-18-6 Sodium sulphamidate 36 mg/m<sup>3</sup>

· PAC-2:

13845-18-6 Sodium sulphamidate

· PAC-3:

13845-18-6 Sodium sulphamidate

## 7 Handling and storage

## · Handling:

· Precautions for safe handling

Keep away from heat and direct sunlight.

Do not mix with acids.

Avoid direct contact (skin/eye contact, ingestion and/or inhalation of fume/mist/dust) with the product in the undiluted form.

Safety showers and eye wash facilities should be available at the work area.

Contact lenses should not be worn while working with this product.

Prevent formation of aerosols.

· Information about protection against explosions and fires: No special measures required.

# · Conditions for safe storage, including any incompatibilities

- · Storage:
- · Requirements to be met by storerooms and receptacles:

Do not store in aluminium or galvanised containers.

Prevent any seepage into the ground.

120 mg/m<sup>3</sup>

6,000 mg/m<sup>3</sup>

(Contd. of page 3)

Reviewed on 02/22/2023

Printing date 03/03/2023

# Trade name: Genesol 80

• **Information about storage in one common storage facility:** Store away from foodstuffs. Do not store together with acids.

Further information about storage conditions:
Store in cool, dry conditions in well sealed receptacles.
Protect from exposure to the light.
Protect from frost.

 $\cdot$  Specific end use(s) No further relevant information available.

## **8 Exposure controls/personal protection**

• Additional information about design of technical systems: No further data; see item 7.

- · Control parameters
- · Components with limit values that require monitoring at the workplace:

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

- · Additional information: The lists that were valid during the creation were used as basis.
- · Exposure controls
- **Personal protective equipment:** Select PPF appropriate for the ope
- Select PPE appropriate for the operations taking place taking into account the product properties.
- · General protective and hygienic measures:
- Do not eat, drink, smoke or sniff while working.

Do not eat or drink while working.

Keep away from foodstuffs, beverages and feed.

Immediately remove all soiled and contaminated clothing.

Wash hands before breaks and at the end of work.

Avoid contact with the eyes and skin.

- Breathing equipment: Use suitable respiratory protective device in case of insufficient ventilation.
- · Protection of hands:

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation • Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

## Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

• Eye protection:

Tightly sealed goggles

· Body protection:

Protective work clothing

Printing date 03/03/2023

**Trade name: Genesol 80** 

Reviewed on 02/22/2023

· Chemical stability

- Thermal decomposition / conditions to be avoided:
- No decomposition if used and stored according to specifications.
- $\cdot$  Possibility of hazardous reactions Reacts with acids releasing chlorine.
- $\cdot$  Conditions to avoid No further relevant information available.
- · Incompatible materials:

Strong acids and oxidising agents Finely powdered metals. Ammonia

• Hazardous decomposition products: Carbon monoxide and carbon dioxide Chlorine Hydrogen chloride (HCl) Sulfur oxides (SOx) Metal oxide

# **11 Toxicological information**

- · Information on toxicological effects
- · Acute toxicity:
- · Primary irritant effect:
- on the skin: Irritant to skin and mucous membranes.
- on the eye: Irritating effect.
- · Sensitization: Based on available data, the classification criteria are not met.
- · Additional toxicological information:

The product shows the following dangers according to internally approved calculation methods for preparations:

Irritant

ROUTES OF EXPOSURE: Can be absorbed into the body by inhalation and by ingestion. Repeated or prolonged skin contact may induce sensitisation.

· Carcinogenic categories

· IARC (International Agency for Research on Cancer)

None of the ingredients is listed.

## · NTP (National Toxicology Program)

None of the ingredients is listed.

## · OSHA-Ca (Occupational Safety & Health Administration)

None of the ingredients is listed.

# **12 Ecological information**

- · Toxicity
- Aquatic toxicity: No further relevant information available.
- Persistence and degradability The organic portion of the product is biodegradable.
- · Behavior in environmental systems:
- $\cdot$  Bioaccumulative potential Product is not expected to bioaccumulate.
- $\cdot$  Mobility in soil No further relevant information available.
- · Ecotoxical effects:
- · Remark: Harmful to fish

(Contd. on page 7)

US

(Contd. of page 5)

Printing date 03/03/2023

#### Trade name: Genesol 80

· Additional ecological information:

#### · General notes:

Do not allow product to reach ground water, water course or sewage system. Danger to drinking water if even small quantities leak into the ground. Water hazard class 2 (Self-assessment): hazardous for water

- Harmful to aquatic organisms
- $\cdot$  Results of PBT and vPvB assessment
- **PBT:** Not applicable.
- **vPvB:** Not applicable.
- · Other adverse effects No further relevant information available.

## **13 Disposal considerations**

## · Waste treatment methods

#### · Recommendation:

- Recommended Hierarchy of Controls:
- Minimize waste;
- Reuse if not contaminated;
- Recycle, if possible; or
- Safe disposal (if all else fails).

Contact waste processors for recycling information.

Must not be disposed of together with household garbage. Do not allow product to reach sewage system. Used, degraded or contaminated product may be classified as hazardous waste. Anyone classifying hazardous waste and determining its fate must be qualified in accordance with state and international legislation.

## · Uncleaned packagings:

## · Recommendation:

Disposal must be made according to official regulations.

Container remains hazardous when empty. Continue to observe all precautions.

Containers, even those that are "empty," may contain residues that can develop flammable and/or hazardous vapours upon heating. Do not cut, drill, grind, weld, or perform similar operations on or near empty containers.
